

Community News

A display of historic artifacts, photographs and memorabilia offers visitors a glimpse into the community's rich past, showcasing everyday life and local history through carefully preserved exhibits.

Beverly History on Display at Fort Edmonton Park

The history of Beverly has hit the road! The Olde Towne Beverly Historical Society formed out of a desire to preserve the rich history of Beverly. Once its own town before amalgamating with the City of Edmonton in 1961, the Historical Society felt it very important to keep the stories of the olde town of

Beverly alive, believing that our history has instilled a sense of great pride in our community that persists to this day. This led to the publishing of a historical book titled Built on Coal, which tells many of the stories of the formation of the area. It also led to the formation of an Interpretive Centre, a fascinating interactive

museum that exists to this day in Floden Park near the Beverly Heights Community League's ice rinks. This month, the Beverly Historical Society had the opportunity to take this fascinating museum on the road at the invitation of Fort Edmonton Park, who wanted to start showcasing local communities with rich histories and chose Beverly

as its first. Much of the Interpretive Centre museum was carefully packed up, and a beautiful display was put together at Fort Edmonton Park. This exhibit marks a special opportunity to show the City of Edmonton and beyond our rich history and the deep sense of pride that exists in Beverly!

Beverly history on display

Continued from page 1

A visit to the exhibit, like a visit to the Interpretive Centre here in Beverly, will showcase some fascinating olde towne Beverly artifacts. Notably, a number of treasures from Beverly's coal mining era are on display, including turn of the century mining helmets that show how miners lit flames right on their heads to illuminate the way through the deep, dark shafts in a time before electricity in the mines. Other artifacts of the olde towne include outfits such as a firefighter jacket that shows how Beverly operated its own services decades ago and a baseball jacket from the legendary Alberta baseball championship Beverly Drakes.

Also in the museum is a tribute to the old Beverly Page newspaper, the renowned Beverly Memorial Cenotaph, as well as displays showcasing what school and home life were like for coal mining families in Beverly a century ago.

The exhibit in Fort Edmonton Park is open now, and runs into September. Find it at the park in the building at the end of the train platform when you first enter the park.

Learn more about Beverly's history at beverly-history.ca or via the Built on Coal book, which is for sale at Fort Edmonton Park as well as weekly at the Beverly Farmers' Market.

Beverly to Bayern: The Story of Alphonso Davies

Four years ago, students at St. Nicholas Junior High School here in Beverly were told that class was cancelled in order to watch a soccer game. The FIFA World Cup had begun, and Canada was about to play its first game in the tournament since 1986, a difficult tilt against a strong Belgium squad. While seemingly a strange reason to pause lessons, the match marked a significant moment for St. Nicholas School, as one of its own was suiting up for the big game.

The story of Alphonso Davies begins in Buduburam, in a Ghanaian refugee camp. Davies was born there after his parents fled from the civil war in Liberia. These marked difficult times for the family, who struggled every day to find food and water. Ultimately, it led to the family immigrating to Canada, bringing Alphonso across the Atlantic Ocean to Edmonton at the age of five.

Alphonso excelled in sport through elementary school at Mother Theresa Catholic School, and as a result got connected with Free Footie, a local no-cost soccer development program. Here, Alphonso grew his love for the game, and it was quickly apparent that there was something very special about him. This was nurtured in his junior high years, as he began at the well-known soccer academy at St. Nicholas Junior High School. The academy and the local soccer community as a whole quickly came to know Alphonso as he further developed his game over three years at the local Beverly school. During this time, he also played club level soccer with the Edmonton Strikers. He continued through junior high here in Beverly, and before finishing ninth grade he was already set to take the next step. He eyed Major League Soccer, and tried out for the Vancouver Whitecaps residency program at just 14 years old. Coaches of the program wanted him to start right then and there, being blown away by his skill at the game. It was 2015, after finishing ninth grade, that he began this program.

At age 15, he signed with the Whitecaps FC 2, and became the youngest player in the history of the United Soccer League. He immediately took it by storm, and only played 11 matches for this club as he steadily moved up toward the starting lineup of the big club. Alphonso next made history by being the first player born in the 2000s to play in Major League Soccer and the second youngest ever, playing his first match for the Vancouver Whitecaps at just 15 years, 8 months, and 15 days old. He would play 65 matches for Vancouver.

Interest in Alphonso Davies was global, and he was scouted by such legendary European clubs as Manchester United, Chelsea, and Liverpool. In 2018, at just 17 years old, Alphonso signed a stunning and unprecedented five year contract with Bayern Munich in the German Bundesliga, marking a record-breaking transfer from the MLS. News of this was dominant in Canada, as a local talent signing such a prestigious contract with one of the world's top clubs made for a significant moment for Canada Soccer. Already regarded as the greatest men's player in Canadian soccer history, Alphonso made his debut for the big German club in its 2019-

A young Alphonso Davies proudly displays his trophy after a youth soccer tournament, reflecting the early promise and determination that would eventually lead him to represent Canada on the international stage.

2020 season, and played his first games in the UEFA Champions League that year as well. He went on to win Bundesliga Rookie of the Season, and also was part of a Bayern Munich team that won the prestigious "continental treble" after claiming the Bundesliga, the Champions League, and the DFB-Pokal titles. He has since appeared in over 150 matches as a full back for Bayern Munich, and has become globally known as one of the world's most elite attacking full backs with his iconic speed and creativity.

Throughout 2021 and 2022, Alphonso was an instrumental piece of an incredible run with the international Canadian squad as they marched their way to qualification for the 2022 FIFA World Cup in Qatar. This included an unforgettable qualifying match back in his hometown of Edmonton, where Canada defeated Mexico 2-1 in a frigid match now remembered as "The Icteca". Alphonso helped the nation qualify for its first men's World Cup since 1986.

In their second match in Qatar, Alphonso scored the nation's first ever goal at the tournament. Just over a minute into the match against Croatia, he raced down the left flank, outpacing his coverage as a cross came into the box from teammate Tajon Buchanan. Alphonso's header sailed perfectly into the back of the net, and the nation went into an uproar. For Canada's first men's World Cup goal to be scored by its brightest star was poetic.

Following this, Alphonso was named

captain for the national squad, and led the nation in the 2024 Copa América tournament. Canada surprised with a brilliant march all the way to the semifinals against Lionel Messi's Argentina squad, and finished fourth in the tournament.

In February of 2025, Alphonso signed a new contract with Bayern Munich until June of 2030.

He is now in his second FIFA World Cup, which includes matches hosted in his home country. The current tournament includes games in both Vancouver and Toronto, showcasing the emergent role of Canada in the global soccer climate, a testament to the influence of Alphonso Davies as Canada's biggest star. As part of qualification for this, Canada played a friendly at Commonwealth Stadium here in Edmonton in early June. While not playing due to injury, Alphonso walked onto the pitch to participate in pre-game ceremonies to a raucous cheer from fans in the stadium.

This Edmonton influence has remained through it all for Alphonso Davies, who considers himself an Edmontonian through and through and regularly speaks to the major role that his earlier soccer days have played in his life. He even returned to surprise the students at St. Nicholas Junior High in 2018, shortly after signing that first big Bayern Munich contract. His love for the game and his elite world-class skill grew and were nurtured on pitches right here in Beverly, and it is special to watch kids at St. Nicholas School and throughout the Beverly area as they believe anything is possible for them because they know that the greatest men's soccer play in Canadian history emerged right from their own backyard.

Canadian men's national team star Alphonso Davies controls the ball during international competition, showcasing the speed, skill and composure that have made him one of Canada's premier soccer talents.

Beverly Farmers' Market Celebrates 30 Years!

- 30 years of delicious, locally grown fresh vegetables.**
- 30 years of juicy, perfect fresh BC fruit.**
- 30 years of mouth-watering homemade baking of every sort.**
- 30 years of beautiful, handcrafted jewelry and other artisan creations.**
- 30 years of gathering on warm afternoons under a comforting summer sun to visit with neighbours at the community's favourite meeting place.**

How time flies!

This summer the Beverly Farmers' Market is celebrating – you guessed it – its 30th anniversary!

First operating in June of 1996, the market has served as a core piece of the Beverly community for three decades and counting.

The market has endeared itself to Beverly over the years not just as a quick stop for fresh veggies, but as a core factor in what continues to give Beverly its persistent small town feel.

Many of us pop by the market to shop, picking up everything from locally-sourced honey to loose-leaf tea to 3D printed pop-culture creations on top of our weekly restock of vegetables.

Many of us also pop by to visit with vendors that we've gotten to know well, who have greeted us week after week and year after year by name as we head to their stall for tasty Jamaican, Thai, Chinese, or other meal options.

A silver-painted living statue performer poses with Member of Parliament Kerry Diotte during the Beverly Farmers' Market, adding a touch of entertainment and whimsy to the community celebration.

See us for any of your PROPANE and HEATING needs

Many of us also come by because the market is a perfect gathering space for social time, and we know that we'll bump into a friend or a neighbour and get the chance to catch up.

Many of us also visit because supper is on the mind and the market offers the chance to sit down outdoors for a tasty meal.

Many head to the market because of the live music that provides us the chance to enjoy local artists as their tunes flow through the warm summer air.

Many stroll into the market with kids in tow, and the kids immediately run off to play one of the kids' games, laughing over a spirited giant Jenga or giant Connect Four competition.

There are many reasons we have all headed to the Beverly Farmers' Market on Tuesdays over the years, and it has become a special part of what makes Beverly home. The market has consistently been there on the warm Tuesdays, the rainy ones, and even those late full-on blizzards when we thought winter was finally over. Consistent through the years is the fact that the market will always be

Children enjoy the inflatable bouncy castle while families gather for a day of fun and activities during the Beverly Farmers' Market, celebrating community spirit and the market's 30th anniversary.

there on Tuesdays, and we'll always feel welcomed popping by.

For its 30th season, the Beverly Farmers' Market kicked off with a special anniversary celebration, which included a bounce castle, giveaways, and other family activities. Free donuts were served by our MLA and MP. The kickoff was a special day celebrating a special piece of our community!

Visit the Beverly Farmers' Market each Tuesday

from 3-7pm in the west parking lot of the Riverview Crossing Shopping Centre at 3210 118 Avenue. Beverly Boston Pizza Offers Memorable Live Music Nights

There's a new sound emanating from your local Boston Pizza. To kick off the summer, Beverly's Boston Pizza announced that it would be offering live music nights every month all summer long! Locally owned and operated, the Beverly restaurant wanted to offer events that resonated with the local community, and live music has been a hit!

This began with a great set from local folk artist Michael Chenoweth on May 15. Talented and diverse, he wove through a set of classic rock, traditional country, folk, blues, and jazz inspired tunes. Best of all was his stage presence, and the way he seamlessly engaged the crowd. As he worked his magic from the stage, Boston Pizza offered its classic food to the classic music, making for a great night out.

Then, on June 12, the lights came back on for the second monthly show. The SSD Acoustic Project, a husband and wife duo based out of Edmonton, performed their blend of both original music and classic covers, ranging every genre from country to pop to classic rock. It served for another great live music night, again perfectly blending fantastic food, great drinks, and quality live music!

Two more live music nights are planned, one in July and one in August. The events are free, and run from 6-8pm each show night. The first live music nights have brought a fun, positive vibe to the community, and have showcased the strength of local businesses that listen to the needs of its customers and offer up special opportunities to get out in the area.

An empty stage, illuminated by overhead spotlights and set with a lone chair, awaits the next performer before the start of a live entertainment event.

Keep up with the Beverly Boston Pizza and hear details about the next shows by following them on Facebook by searching "Boston Pizza Beverly" or on Insta-

gram at @bostonpizzabeverly. The perfect date night or night out with friends is awaiting in July and August right here in Beverly!

A musician performs live on stage, entertaining patrons with an acoustic set during an evening performance as the intimate venue provides a warm backdrop for the show.

The Amazing Elders of Northeast Edmonton

The SAGE Seniors program started ten years ago, led by Kristine Nutting with five original members.

The group began out of a desire to encourage seniors to get out of their homes and interact with other seniors. This started at the C5 Hub Space, and has now grown to 24 members and operates out of the South Clareview Community League, who graciously accepted SAGE as one of its programs. They call themselves the “Amazing Elders”, because they are indeed amazing, and they accomplish a lot!

From greeting card making to cake baking to special guest speakers, the seniors group always has something on the go. Recently, they have done make-up demos, talent showcases, magic shows, and even tea with local MLA Peggy Wright. Presentations range from kayak and canoe video tours to poetry to composting to elder abuse awareness.

The group also takes field trips, including to the CFWE 98.5 FM radio station, the downtown Stanley Milner li-

Friends gather to celebrate May birthdays, sharing cake, conversation and smiles during a seniors social event.

Proud to represent the communities of Beverly

Peggy Wright
MLA FOR EDMONTON-BEVERLY-CLAREVIEW

Members of a local seniors group gather for a visit to a greenhouse, browsing colourful flowers and plants while enjoying an afternoon of friendship and community.

brary, the Royal Alberta Museum, Kuhlmann’s Greenhouse Garden Market, Nanaksar Gurdwara Gursikh Temple, Truc Lam Buddhist Temple, and NAIT. Upcoming events and trips include the Raging Grannies activist group and a native plant presentation. On July 12, the group will attend the Passion Play in Drumheller, and on July 17 they’ll receive a visit from former Member of Parliament and current chief of staff to the mayor Blake Desjarlais. In August, they’ll take part in the Alberta Open Farm Days.

To say that the group stays

busy is an understatement, as the SAGE Seniors group is always on the go! What makes it the most special, of course, is the community and comradery that comes with their weekly meetings. This includes their Birthday Club, which celebrates members with birthdays that month on the third Friday of every month.

The SAGE Seniors group meets every Friday from 1-3pm at the South Clareview Community League hall at 3250 132A Avenue. All seniors are welcome. Call Pat Moffitt at 780-915-9253!

New Flavours at the Riverview Crossing Food Court

If you've taken a stroll through the Riverview Crossing Shopping Centre lately, chances are you've seen... or perhaps smelled... something new.

Two new food spots came into the shopping centre's food court together this past April, and both serve delicious new options for the Beverly community.

If you're craving delicious classic deli sandwiches, look no further than the amazing Big Bear Sandwich Co.

Its owner Barrie opened his first sandwich shop location in Sherwood Park three and a half years ago, and it quickly became a popular sandwich destination in Sherwood Park and beyond. This inspired Barrie to open his second location, and he chose Beverly's shopping centre. Big Bear Sandwich Co. serves all sorts of classic sandwiches and more. Try the Clubhouse Sandwich, a popular choice with turkey, bacon, tomato, cheddar, and mayo on your choice of bread. Or bite into a Roast Beef Cheddar Melt, with slow cooked roast beef, red onion, horseradish mayo, and cheddar cheese on a baked torpedo bun. Or try the Chicken Bacon Ranch, with slow cooked chicken, bacon bits, ranch dressing, all baked with mozzarella cheese on a torpedo bun. There are plenty of mouth-watering sandwich options.

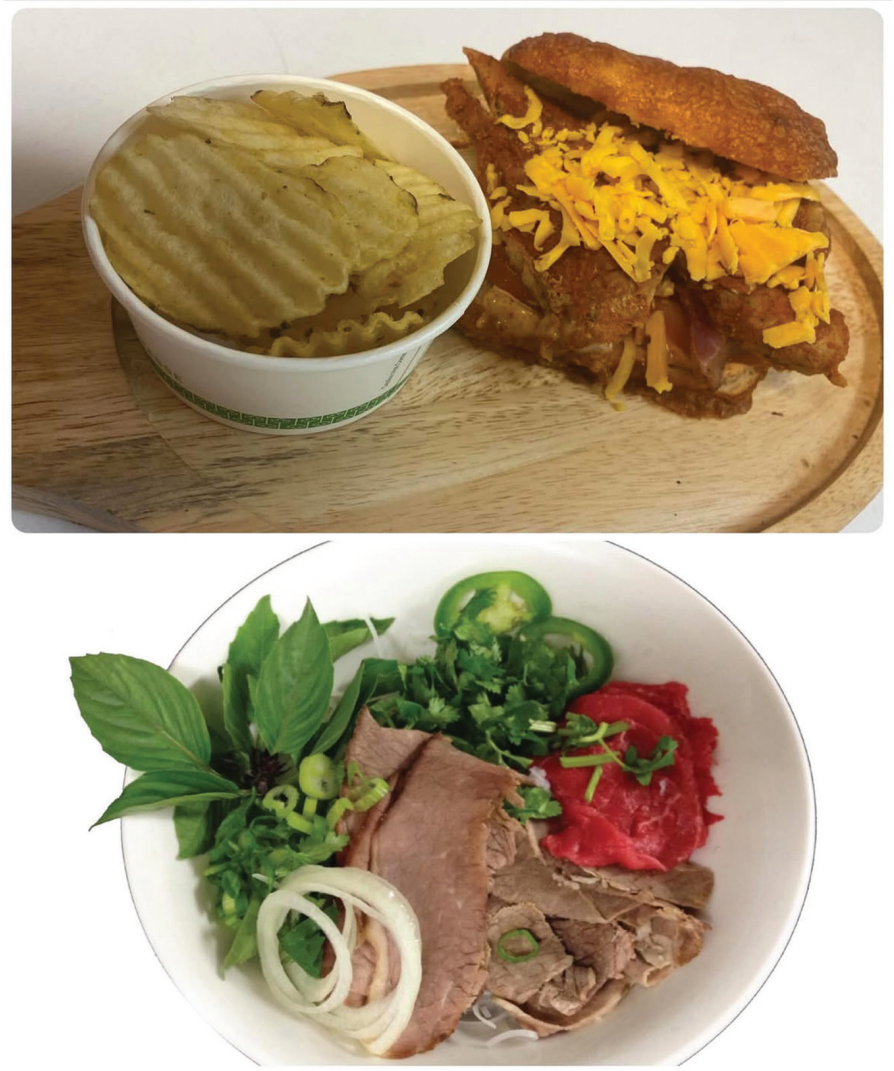

Beyond sandwiches, Big Bear also serves quesadillas, wraps, and more. A must-try is their unique breakfast sandwich, a hand-made invention by owner Barrie himself, which has caused more than a few people to remark that it's the best breakfast sandwich they have ever had.

Beside them is the fantastic Delicious Pho, a tasty Vietnamese hotspot that also originated in Sherwood Park and is also opening its second location here in the shopping centre food court. Owner Linda's pho is well beloved in Sherwood Park, and has become well known for its enormous, generous portion sizes. Customers know they'll be full when they swing by Delicious Pho. They serve a variety of pho noodle soups with your choice of steak, meatballs, chicken, brisket, and more.

Beyond that, they offer vermicelli bowls, rice bowls, spring rolls, and much more. Delicious Pho offers a friendly face and a delicious meal with each visit!

Visit both the Big Bear Sandwich Co. and Delicious Pho in the food

court inside the Riverview Crossing Shopping Centre. Both are excellent places to grab a meal, and both bring new, tasty flavours to Beverly's already rich culinary scene.

Bush Mine Hockey Team from 1933/34

A Rich History of Sports in Beverly

It’s not there anymore, but for a group of young men in 1934, the Beverly Skating Rink at the northwest corner of 118th Avenue and 40th Street was truly a rink of dreams. Built by several men including Glenn Wilson, the rink utilized the run off from the Beverly mine, pumped by a donkey engine to flood the ice. The ice was the primary playing surface for the Bush Mine Tigers, the team that won the Coughlin Cup (the Commercial League Championship) on March 15, 1934, beating Hillas Electric Black Hawks 2-1 in the third and deciding game.

One of the last surviving members of that winning team is Harold Jinks, who scored the winning goal with just eight seconds to play. Jinks was born in 1913 and moved to Beverly in 1915. He recalls the Beverly rink was made out of a slough. “We used to pump water out of the Beverly mine ditch which ran right along 40th and flood it. Then we’d put our boards up

and play some hockey.”

“We were just a bunch of hillbillies having fun,” he laughs.

The Beverly Athletic Club team began play in the regional commercial league in 1931/32 and, in 1934, the team was sponsored by the Bush Mine and became the Bush Mine Tigers. The Tigers played until the 1937/38 season.

For a small community, Beverly generated more than its share of championship teams. Building on the achievement of the Bush Mine Tigers, several other sports teams won big, including the Beverly Athletics and then the Beverly Drakes (sponsored by the Drake Hotel), a men’s intermediate team that captured the Alberta Baseball Championships three consecutive times in the early 1950s. Another Beverly team called the Edmonton Rotary Midgets won the Northern Alberta Midget Baseball Championship in 1959 and a year later a team

sponsored by Beverly Welding won the Edmonton Men’s Fastball Championship.

As hundreds of families poured into the district in the 1950s, the minor hockey program expanded dramatically and many boys and girls participated in the sports programming that became one of the most utilized in the entire Edmonton area. Among the many successful teams over the years was the Beverly Heights Peewee hockey team, which won the 1977 Taber Invitational Peewee Hockey Tournament. That year, the team also travelled to California to compete in the West Covina International Christmas Peewee Hockey Tournament and then repeated as champions at Taber in 1978. Several Beverly players made it to the National Hockey League including Harold Schnepts and brothers Gary and Kenny Yaremchuk.

I Was a Skeptic... Until This Happened

Marty's Peripheral Neuropathy Recovery

If you had asked me a year ago what I thought about acupuncture, I would have told you—honestly—I didn't believe in it.

I'm Marty, and I consider myself a practical, evidence-based person. I trusted traditional medicine, and I was skeptical of anything that sounded like an "alternative." But life has a way of challenging your assumptions.

In 2024, I went through one of the most difficult years of my life. I suffered a serious, nearly fatal heart attack. Thankfully, I recovered well enough within seven months to undergo a full hip replacement surgery. It was a long road, but by early 2025, I was finally starting to feel like myself again. Then, out of nowhere, something new started.

I noticed a strange loss of feeling in the sole of my foot. At first, I didn't think much of it. But then the same sensation appeared in my other foot. And it didn't go away. In fact, it got worse.

The best way I can describe it is this: it felt like I was walking around in heavy, cold clay sandals all the time. It was constant, uncomfortable, and very concerning. On top of that, I had numbness, tingling, and foot pain.

Days turned into weeks. I wasn't improving, I was getting worse. It wasn't going away by itself. I knew I needed to do something about this and fast.

That's when my wife suggested I look into acupuncture. She had come across a patient's story that sounded very similar to what I was going through. I'll admit, I was hesitant. I didn't want to jump into something without fully understanding it, especially given everything I had already been through medically.

I decided to gather information and book my consultation. That first appointment changed my perspective.

What stood out to me immediately was how professional and straightforward the consultation was.

There were no unrealistic promises. No pressure. Just a clear explanation of what might be going on.

Dr. Melanie Morrill, Dr. Ac, assessed my idiopathic neuropathy and walked me through a treatment plan. She explained what it would involve, how long it would take, and what kind of results I could realistically expect.

Most importantly, she gave me time to think about it. I didn't feel rushed into a decision. I went home, did my research, spoke with my doctor, and carefully considered my options.

I decided to move forward with treatment. Looking back now, I'm very glad I did.

As of December 2025, I've completed a series of acupuncture treatments, with more scheduled as part of the plan. Throughout the entire process, I've been consistently impressed, not just with the care itself, but with the people.

The staff at Accessible Acupuncture are knowledgeable, professional, and genuinely kind. That matters more than you might think when you're dealing with a condition that affects your daily life.

But what matters most is this: I've improved significantly. Today, I'm able to walk comfortably again. I am now walking, curling, golfing and cycling with full confidence and comfort. I am thankful to acupuncture for that!

I can go up and down stairs without needing a banister. I'm back at the gym. I can ride a bicycle, do my yard work, handle daily tasks, and live my life the way I did before these symptoms started.

I don't have pain anymore. There's still a slight tingling in the soles of my feet, but compared to where I was, it's a dramatic improvement.

If you had told me a year ago that I'd be saying this about acupuncture, I wouldn't have believed you. But here I am.

I've also learned that acupuncture, when done properly, is not invasive or intimidating. It's a straightforward, low-risk treatment that, in my case, delivered real results.

There are no guarantees. But if you're dealing with neuropathy like I was, I believe it's worth serious, honest consideration.

Don't wait and hope it goes away on its own. That's what I did at first, and it only got worse.

If you're experiencing numbness, tingling, or unusual sensations in your feet, take the next step.

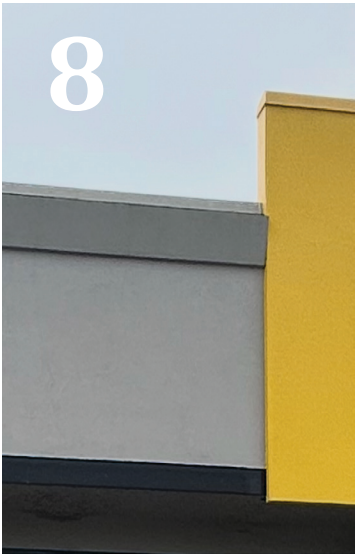

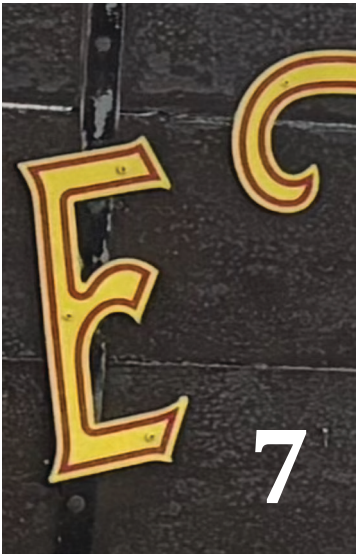

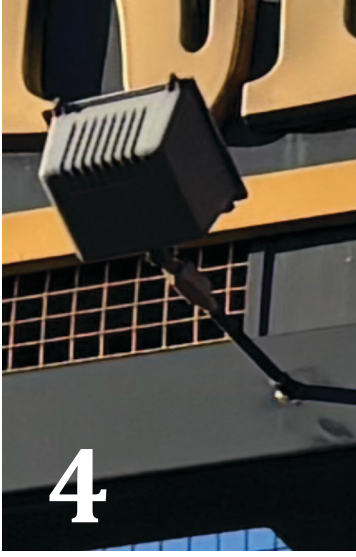

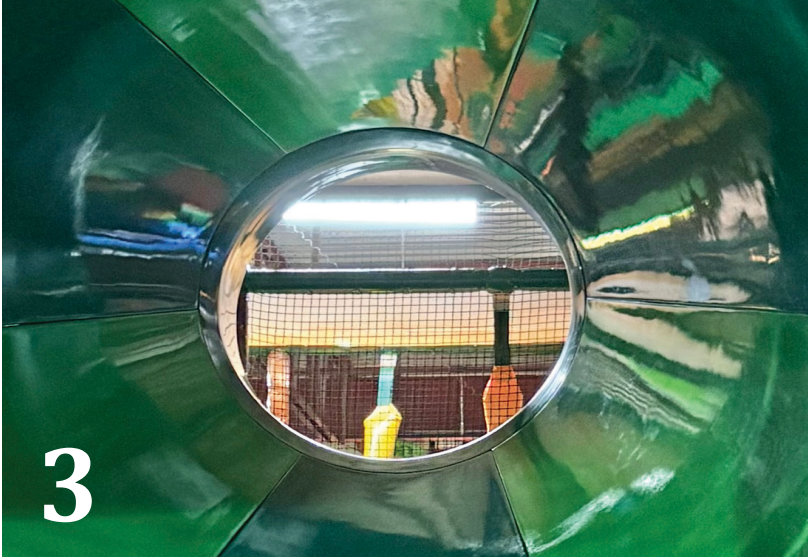

Call 587-879-7122 to book your consultation today.
